*A finished product made of an OK biodegradable ( WATER or SOIL ) certified basic or raw material, does not automatically comply with the requirements of the OK biodegradable certification scheme. Because of the other unknown components that can be added to the finished product (ink, glue, ...), this finished product needs to be submitted to OK biodegradable certification in order to have the permission to put the OK biodegradable mark on this finished product.*

*The conformity of the products is guaranteed by the procedures for awarding and use of the 'OK biodegradable' conformity mark. This only applies to specimen bearing the 'OK biodegradable' mark.*
