OK biodegradable MARINE

OK biodegradable SOIL

and

OK biodegradable WATER

Conformity Marks

	The first part of this document contains the list of the OK biodegradable MARINE certified products (Chapter
	The second part of this document contains the list of the OK biodegradable SOIL certified products (Chapter S).
	Please refer to the third part (Chapter W) for the OK biodegradable WATER certified products list.

Download the last version of this list.

**Visit our website www.okbiobased.be
or scan the QR code**

A finished product made of an OK biodegradable (WATER or SOIL) certified basic or raw material, does not automatically comply with the requirements of the OK biodegradable certification scheme. Because of the other unknown components that can be added to the finished product (ink, glue, ...), this finished product needs to be submitted to OK biodegradable certification in order to have the permission to put the OK biodegradable mark on this finished product.

The conformity of the products is guaranteed by the procedures for awarding and use of the 'OK biodegradable' conformity mark. This only applies to specimen bearing the 'OK biodegradable' mark.
